

## Pets And Owners To The Rescue

If ever you have a loneliness regret  
Bring you more company could a pet  
And by being to them kind  
They can deeply relax your mind

Most of the time doing like they ought  
Dogs can take you for a regular keep fit walk  
And cats whilst go for a walk on their own  
Would give you nice company when at home

Even if to you a dog or cat might take too much time  
Just getting some goldfish could help you feel more fine  
And by taking of your time just a fraction  
From personal, and negative thoughts, they can be distraction

So do not be lost at home alone  
When a nice and friendly pet you may own  
And it may take not too much of a distance  
To show each other warm hearted assistance
