

The Great Defender Gary Neville

- 1) Gary Neville played at Man United for ages
Went through many different stages
He had his debut in September 1992
The date he was first seen by me and you
- 2) Gary helped Man United win many a cup
And shake many teams up
He was such a good defender at right-back
That he definitely wasn't going to face the sack
- 3) In December 2005 when Gary had fulfilled many a cup winning dream
He was made Captain of the great Man United Team
And managed to really lead them on
Before much time was gone
- 4) Gary brought his football dreams more alive
When he had a debut for England in 1995
Him and his brother Phil Neville played for England for quite a while
Bringing to the supporters and England Managers a big smile
- 5) Gary's last game for Man United was in January 2011
After on many occasions he'd taken them and Sir Alex to heaven
Yes he'd really helped Man United and England out
And done that without a doubt
