

At The Zoo

- 1) One nice thing to do
Is nip to the zoo
Especially in the sun
You can have quite a bit of fun

- 2) You see there many a creature
Of an interesting feature
People can there hear a lion roar
Like they've never done before

- 3) There is also many a monkey
Some that look chunky
And sometimes a giraffe
With whom to have a laugh

- 4) Quite a few elephants too
Of which there's a nice view
And in the background many a bird
With their whistling to be heard

- 5) Looking round all these animals is nice
For just a small price
And you can definitely come and see them again
Though I'm not sure absolutely when
