

Attending The Disco

- 1) Me and my friends used to regularly attend the pub
To have a drink and some grub
With a little bit of friendship and romance
We then had many a disco dance

- 2) Going to one disco hall after another
We danced lively with each other
Under all the different flashing light
Moving until quite late at night

- 3) There was to seen plenty a DJ
Playing lots of different rock songs with no delay
Taking request after request
Encouraging people to move with not much rest

- 4) To everyone's deep delight
Lots of the favourite songs were played all night
And people moved the very best they could
Some, similar to John Travolta, responding completely like they should
