

Delivering Many A Letter

- 1) The postman is busy each morning
Whilst he's still often yawning
Being worn off his feet
Walking down street after street
He's hoping the weather will soon be getting better
With him delivering letter after letter

- 2) The postman sometimes gets a sore back
When he's carrying a very heavy sack
With lots of letters still being sent out
And that taking place without a doubt
He's hoping the weather will soon be getting better
With him delivering letter after letter

- 3) The postman said he got most busy in the year
When Xmas time or Valentine's Day was here
When work-wise he was a bit of a regretter
Sorting out very many a letter
He's hoping the weather will soon be getting better
With him delivering letter after letter

- 4) The postman said 'Yes many people still write to each other'
Including him and his distance living Father and Mother
Not wanting to use the phone too much
But to still regularly keep in touch
He's hoping the weather will soon be getting better
With him delivering letter after letter
