

In The British Army

- 1) In Great Britain we've trained many a soldier
Most of them each day getting bolder
Who have to listen to plenty a good coach
To in war conflicts take the right approach
- 2) To use different weapons MOD trainees are taught
So later as qualified soldiers they can do all that they ought
They're trained to use lots of vehicles too
Tanks are drove by quite a few
- 3) In the army you need to be very clever
With out-witting the enemy your top endeavour
Each of them also has to be totally quite brave
For their colleagues and country to save
- 4) We did well to win the world war
Having a much bigger challenge than ever before
And our forces are currently doing all that they can
Deeply hoping to conclude the battle in Afghanistan
- 5) Lots of people who've been in the army deserve a medal or two
Whilst some for deep bravery are given oh quite a few
Who've each covered really quite a distance
And to the safety of this and other countries come of great big assistance
