

The Dangerous Fire of Smoke

- 1) When I say 'I saw a building of smoke'
It was not at all a joke
Without me being anything like a liar
There was in-front of me a very big fire

- 2) Whilst I had a lot of safety to learn
Each part of my house continued to burn
I was beginning to say 'Flipping heck'
Noticing my home become a wreck

- 3) Although now another home I would require
Thank goodness no-one was hurt in the fire
The firemen gradually putting it out
And doing that well without a doubt

- 4) As passers-by needed to beware
Smoke was spreading everywhere
It was soon to be all put out though
And me in life to have another go
