

The Temptation of Chocolate

- 1) It's just gone past a nice Christmas time
When everything's been going fine
Except with some regard for my weight
Which has been getting a little bit heavier, without debate
I'm always suffering temptation
Eating chocolate with no hesitation

- 2) About chocolate cakes and sweets please be a little bit quiet
Because I think I deeply require to go on a diet
It'll be necessary for me to be careful in which shops I go
Not wanting to see too many chocolates out on show
I'm always suffering temptation
Eating chocolate with no hesitation

- 3) A couple of months have now gone by
And I've got a little more thinner, no lie
But now Easter's getting nearer day by day
With Easter eggs soon possibly coming my way
I'm always suffering temptation
Eating chocolate with no hesitation

- 4) There's one area in which chocolate plays a special part
Which is in keeping healthier many a heart
Yes as-well as naughty, it can be good
When eaten in small quantities, as you should
I'm always suffering temptation
Eating chocolate with no hesitation
