

50 Years of 007 James Bond

- 1) Ian Fleming's Secret Agent 007 James Bond
Has been going for 50 years
Bringing lots and lots of cheers
With both 'M' and 'Q's permission
He's gone on many a different mission
James Bond sorted 'Miss Money Penny' out
And did that without a doubt

- 2) Sean Connery in 'Dr No' was the first James Bond
Of which many people were quite fond
Then before much time was gone
007 film-wise George Cazenby starred in one
James Bond sorted 'Goldfinger' out
And did that without a doubt

- 3) Roger Moore in 'Live and Let Die' became 007
And in many other James Bond films
Took stories from terror to heaven
Timothy Dalton was then next to be on T.V.
To be seen as 007 in lots of action by you and me
James Bond sorted 'Jaws' out
And did that without a doubt

- 4) Pierce Brosnan starred as James Bond too
Had watching 'Tomorrow Never Dies' quite a few
Then Daniel Craig as the Secret Agent took a place
Who's going to be seen with many a new 007 film to face
James Bond sorted 'Renard' out
And did that without a doubt

- 5) In each film along with drinking some shaken not stirred 007 had a lot to do
Vehicle and equipment-wise went through quite a few
Although he had many an awkward task maybe
He was always conclusively comforted by many a nice lady
James Bond sorted 'The Man With The Golden Gun' out
And did that without a doubt
