

Happy 90th Birthday Queen Elizabeth II

- 1) Queen Elizabeth II was born in England in 1926 yes
What was in her future she was then deeply unaware of or so I guess
Sooner than it over-all did seem
She was at a still young age to become Queen
- 2) Queen Elizabeth II met husband to be Prince Philip in 1939
Who together Head of Commonwealth of Nations were to do quite fine
Intending to do for many a Nation all that they can
They firstly had Royal Family children Charles, Andrew, Edward and Anne
- 3) Queen Elizabeth II has done for the Commonwealth all that she should
Giving everyone the warm hearted appreciation that she could
Also has given a TV Xmas Broadcast for plenty a year
Which each of the population have found a message quite dear
- 4) Queen Elizabeth II through a Silver, Golden and Diamond Jubilee
In September 2015 became the most long-term serving monarchy
And she, still quite healthy, is having her 90th birthday today
At which we all say hip hip hurray
- 5) Queen Elizabeth II has some great grandchildren now
Who in the future may even take to the throne somehow
But for now it's with her we'll have the most celebration
With us all about to sing the National Anthem with no hesitation
