

## Prince William's 30th Birthday

- 1) Prince William has got his 30th birthday today  
Time is really flying by without any delay  
He was the first born to Diana Princess of Wales, in London in 1982  
To be acknowledged and cheered by quite a few
  
- 2) He went to Private School Eton College to study a lot  
Where many a high qualification was by him got  
With doing well study-wise his big endeavour  
Prince William was to go on and be very clever
  
- 3) He was, like others, upset at his Mum's car crash in 1997  
At the age 15 took part in a large remembrance parade  
Prior to her going to heaven  
With Prince Harry as his brother not an upset son on his own  
Sad was Prince William, whose second-in-line to the British throne
  
- 4) Prince William went to study History of Art at St Andrews University in Fife  
Where he was to make friends with Kate Middleton, his future wife  
Who got married on 29th April 2011  
And became the Duke and Duchess of Cambridge yes  
A very nice future King and Queen for me and you or so I guess
  
- 5) Prince William matured into a studious and sensitive young man  
Who also in his military career has done what he can  
Whilst he's an experienced rescue helicopter pilot in Anglesey  
He'll still have plenty of time for Kate Middleton and the rest of the Royal Family
