

St Michael's Parish Church, Kirkham, Bicentenary Year

- 1) St Michael's Church, Kirkham, is now 200 years old
Or so we've been told
Yes 2022 is its bicentenary year
That many will remember with a smile or tear

- 2) Now to be seen by me and you
It was first built in 1822
Designed by Robert Roper of Preston yes
Who enjoyed putting it together or so I guess

- 3) To keep nice music alive
The church organ was added in 1905
With the choir stalls installed in 1910
In remembrance of churchwardens John Ward and Edward Porter time and again

- 4) Also at St Michael's there's been plenty a Vicar showing their heart
In baptisms, weddings and funerals playing a part
Regularly running a Sunday service too
Which have been attended by oh quite a few

- 5) So yes this year with no hesitation
For the church's bicentenary there'll be lots of celebration
With many a nice event taking place
And the future of it as-well to face
